Gold Rush: We are going to explore the museum while trying to solve a puzzling case with the help of a mysterious map.	We are hoping to book a ride on a 75 year old mail rail, once vital in Britain's communication network, hidden from view.	We will be encouraging the children to use their imagination while learning about different types of codes, such as morse code. The children will then create their own secret codes. Later in the day we will be creating our own stories about 'Secret London', including a picture sequence activity.	If your child has a camera, this would be a great day for them to take photos of some of the unusual street names, such as Milk and Pudding Lane.	We will be briefly learning about the effect of the world wars, plagues and Fire of London on the surrounding areas (1550's-1660's). We will also explore the 3 great myths of the Fire of London.
